

## BOOTH PITAGORA

This high-security booth aims at meeting the most demanding requirements and maintaining the highest security standards, without compromising its appearance.

**PITAGORA** is an anti-burglar interlocked security booth with curved sliding doors made of laminated glass and supported by a reinforced structure on a square base.

The **PITAGORA** high-security booth can be easily integrated into Tesi Tecnologia & Sicurezza's state-of-the-art devices. It fits perfectly into the environment where it is installed and ensures accurate and secure access control.

### Standard Equipment

- Laminated glass interlocked curved sliding doors
- Control panel
- Optical warning devices
- Voice communications for users in transit
- Door opening sensors
- Presence sensor
